Draft Agriculture/Rural Zoning Proposal

Roxanne noted that the primary agenda item for the meeting is to review the CSAC's recommendations to modify Sections 212.29 and 212.29.1 of the draft Agriculture/Rural Zoning proposal.

The committee reviewed the draft document to be submitted to the ZUSC. The discussion focused on how different subdivision options proposed by the ZUSC, BZA and the CSAC would work. The committee worked through two examples of how the formulas would apply to parcels of varying acreage and road frontage measurements. Modifications were suggested and will be incorporated into the final draft.

Roxanne will make the final edits and resubmit the document to the committee by email for final approval. She requested that members respond to her email by 5:00 p.m. on May 4th.
